Software Engineer and Full Stack Developer focused on building modern web applications, digital systems, and AI powered solutions. Experienced in full-stack development, system architecture, and AI integration, with a focus on clean code, maintainable systems, performance, and practical problem-solving.

WORK EXPERIENCE

Operator Sekolah **Feb 2025 – Dec 2025**
PKBM Mekarsari Padalarang **Padalarang, Indonesia**

- Responsible for educational data management via Dapodik (National Education Database), ensuring valid, accurate, and seamless integration with the ministry.
- Managed data entry, validation, and regular updates for institutional, teacher, and student records.
- Ensured timely synchronization between local Dapodik database and the Ministry of Education central servers.
- Maintained data validity and comprehensive administrative records for institutional compliance.

IT Support **Feb 2023 – June 2023**
SMK Kesehatan Bhakti Kencana **Cimahi, Indonesia**

- Handled installation, maintenance, and troubleshooting of IT devices while supporting end-user technical requirements.
- Performed OS, essential software, and computer hardware installations.
- Managed routine maintenance and troubleshooting of local network infrastructure and workstations.
- Provided daily technical support for school faculty and staff to ensure seamless educational operations.

Full Stack Web Developer **August 2024 - Present**
Creative.Tech (My Service Provider) **Padalarang, Indonesia**

- Responsible for full-stack web application development, including system architecture, implementation, and maintenance.
- Designing and building web application architecture across front-end and back-end.
- Developing responsive user interfaces and secure, efficient API integrations.
- Conducting routine system maintenance, bug fixes, and continuous performance optimizations.

Graphic Designer **Sept 2024 - Present**
Creative.Tech(My Service Provider) **Padalarang, Indonesia**

- Designing and producing various visual design assets, including digital content and branding, with a focus on aesthetics and brand consistency.
- Created visual assets for digital marketing campaigns, social media, and online publications.
- Developed brand identity guidelines to maintain consistency across visual touchpoints.
- Collaborated with clients to translate ideas into engaging, aesthetically refined visual designs.

EDUCATION

Bachelor of Informatics Engineering **Sept 2019 – Sept 2023**
Politeknik TEDC Bandung **GPA:** 3.74 of 4.00

- Successfully completed coursework without any obstacles and graduated on time, mastering competencies in the fields of software development, databases, and computer networks. Throughout the program, I actively participated in lab sessions and final projects that applied modern system development methodologies, such as waterfall and agile. I graduated with consistent academic achievements and gained experience in team collaboration to complete information technology-based projects.

SKILLS

Soft Skills: Communication, Teamwork, Critical Thinking, Collaboration, Creativity, Adaptability, Time Management

PROJECTS

EditIn – Online Image Editor
An all-in-one online image editing platform that is fast, fully free, and requires no login. Features tools like resizing, compression, format conversion, watermarking, cropping, OCR, and meme generation with 100% client-side processing for uncompromising privacy and speed.

ScriptFlow Gen AI – Workspace AI
An AI-powered productivity workspace designed for short-form video creators (TikTok, Instagram Reels, YouTube Shorts). Streamlines ideation to recording with AI script generation, high-retention hook optimization, script organization, and a built-in interactive teleprompter.

Spirit Tap
An interactive, static-web-based website developed using HTML, CSS, and JavaScript, and hosted on Tencent Cloud EdgeOne to ensure fast access, low latency, and content distribution via a global edge network.

Graphic Design Project
A visual personal portfolio designed and developed using Canva, presenting professional experience, technical skills, selected projects, and personal achievements through a structured, modern, and visually engaging layout.

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Computer Science Student Association — **August 2021 – Sept 2022**
Member of the Information and Communications Division — Politeknik TEDC Bandung

Responsible for managing publications and social media content, designing visual materials, and documenting the organization's activities. Actively coordinates with various divisions to support publication and technical needs for events.

Islamic Student Association — **Sept 2021 – Oktober 2022**
Chair of the Information and Communications Committee — Politeknik TEDC Bandung

Leads the information and communications division, focusing on the management of digital documentation and the structured archiving of organizational data. Responsible for developing effective communication strategies and ensuring the accuracy of all published information through cross-departmental coordination.
